

# Christmas Village by Di Oliver

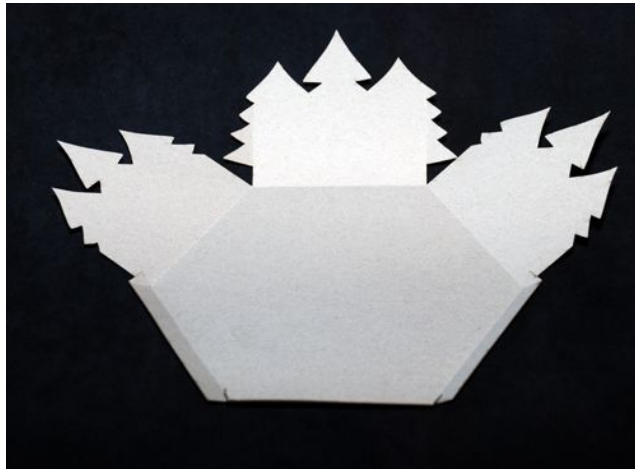

## Supply list:

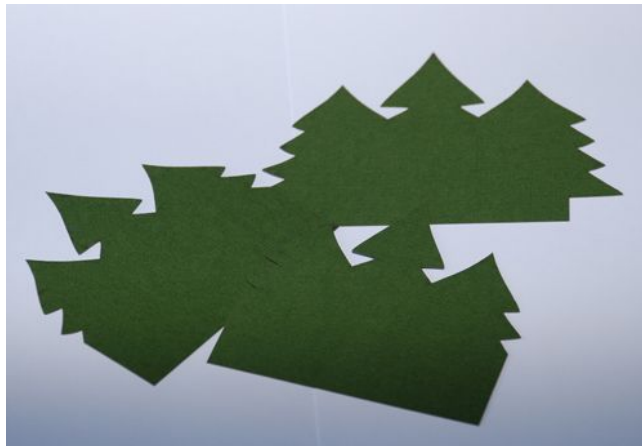

- Viva décor Silver Ferro paint
- Viva décor Silver Precious metal paint
- Viva décor Gloss Gel Opak
- 1 12" x 12" piece of good sturdy flexible greyboard (500micron thick)
- Tando Creative: Mini House Trio
- 1 12" x 12" sheet of Medium Dark Green Bazzil
- Adornit papers - winter collection - a few 6" x 6" offcuts are fine
- Eco-green crafts acrylic paints: White and Periwinkle
- Piece of white felt 9" x 12"
- Cosmic Shimmer Mist - Aqua Lagoon
- Blue ink pad - DI Chipped Sapphire
- Glossy Accents
- Silver Glitter Glue
- Small pieces of chipboard
- Foam pads
- Small silver star

# Instructions:

- 1/. Cut from the 12" x 12" piece of greyboard the base and trees as per the pdf "Template base and back".

- 2/. Cut from the Medium Dark Bazzil 3 of the trees templates as per the pdf "Trees template at back"

- 3/. Roughly paint the trees with the Viva décor Silver Ferro paint leaving some green card still showing.

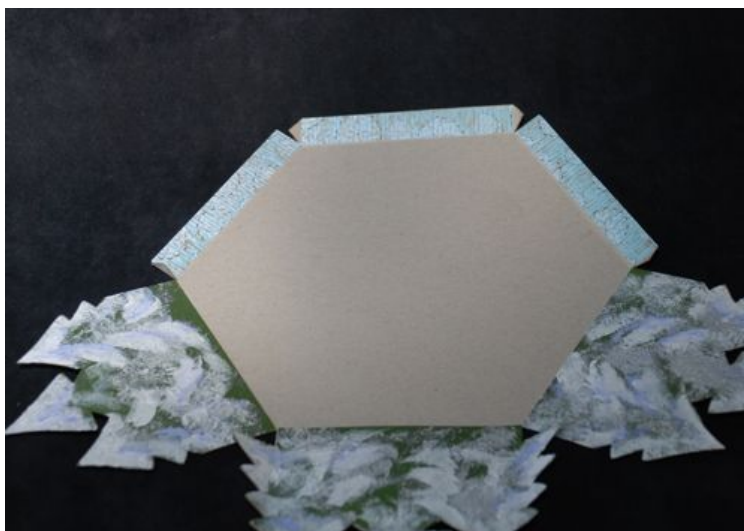

4/. Paint in parts over the top with some Eco-Green acrylic paint in white and periwinkle.

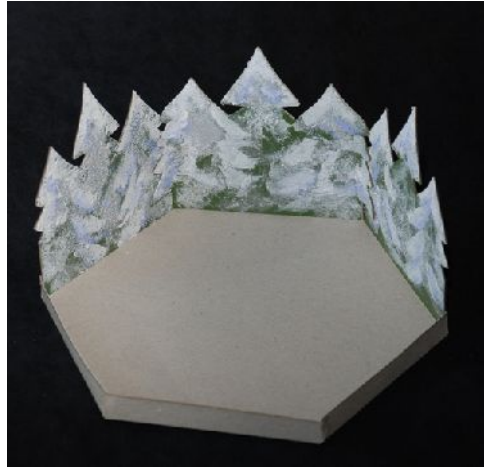

5/. Glue the trees to the greyboard base.

6/. Using some Adornit papers cover the three small edges on the base.

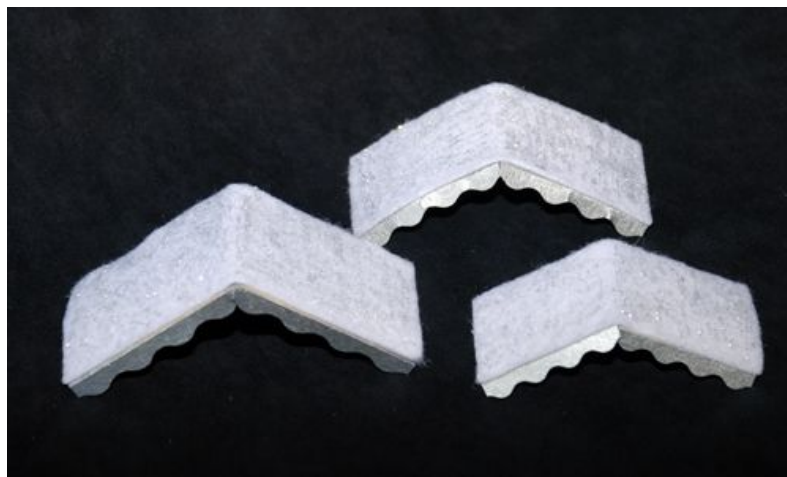

7/.Glue the tabs on the base piece to form a hexagonal base.

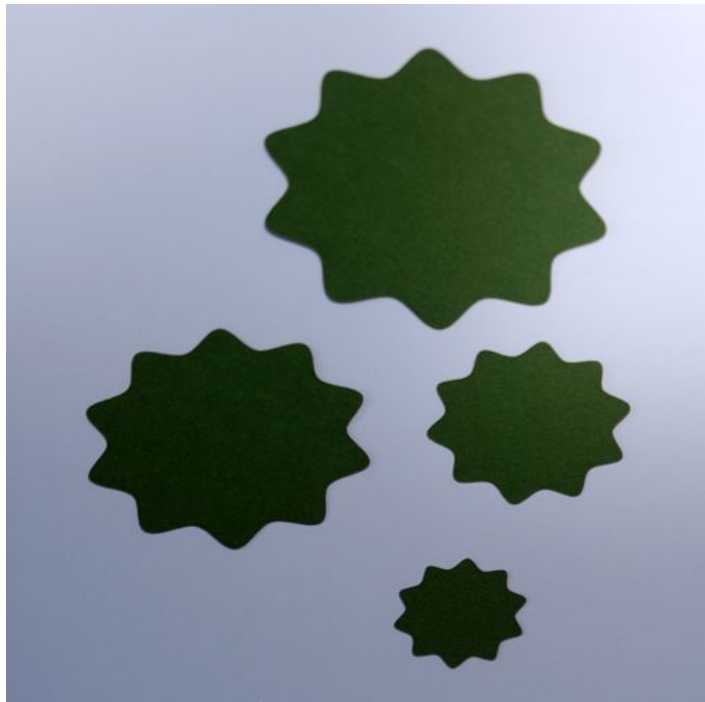

8/. Cover and construct the 3 mini houses.

9/. Paint the edge of the roof pieces with Viva décor Silver precious metal paint, cut and glue white felt to the roof pieces and then lightly cover with silver glitter glue/stickles.

10/. Cut 4 scalloped circles as per the pdf “Tree template”

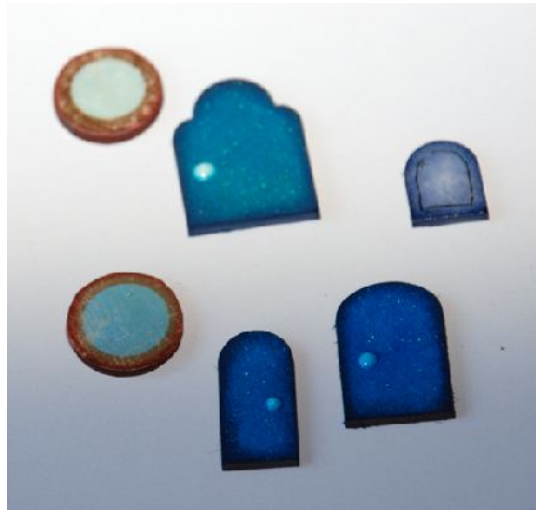

11/. Cut out 2 sections of each scalloped circle.

12/. Glue the 4 tree pieces as shown.

13/. Using odd pieces of chipboard, cut 3 doors and 3 windows to add to the houses. I have used Cosmic Shimmer mist to spray the doors, adding a bit of DI Chipped Sapphire ink to the edges and finishing with a dot of Viva décor Gloss Gel. The windows have been covered with Adornit paper/inked and coated with glossy accents.

14/. Once dry glue the doors and windows to the houses and the roof pieces to the top.

15/. Paint the 4 pieces of the green tree with Viva décor silver ferro and acrylic paint as done before.

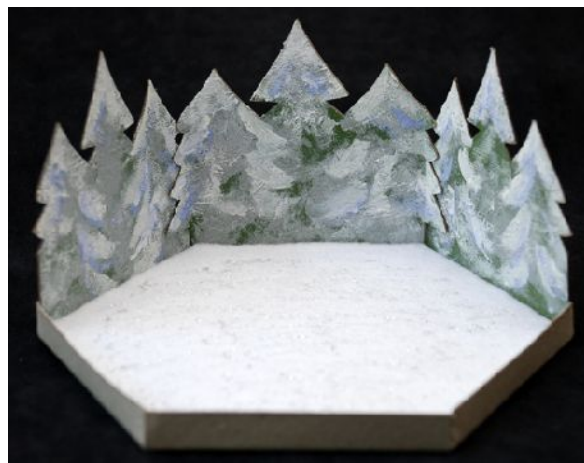

16/. Add foam pads to the top of each section of the tree (except the top piece).

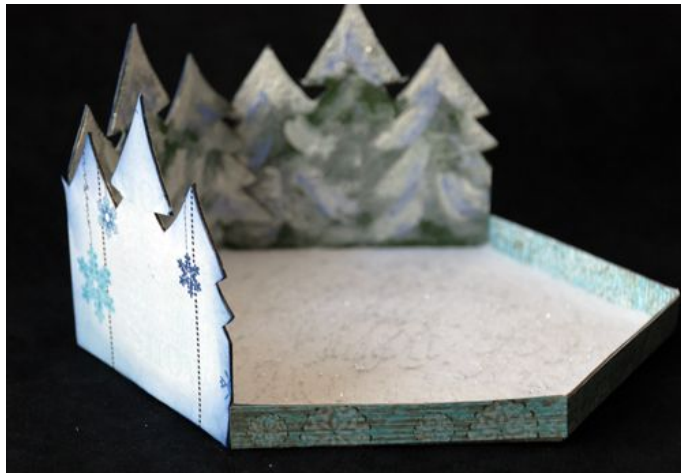

17/. Attach the four parts of the tree together.

18/. Add white felt to the base and apply a light coating of glitter glue.

19/. Cover the outside 6 sides with Adornit papers.

20/. Glue in the houses and tree at the front. Add a small star to the top of the tree.
